Exhibit B

Limited Warranty for PV Modules

Five Year Product Warranty

Wuxi Jiacheng Solar Energy Technology Co., Ltd ("JC SOLAR") hereby warrants the solar Modules ("*MODULES*") produced by JC SOLAR and its accessories (DC connectors and cables) to conform to the Specifications and to be free from defects in materials and workmanship for 5 years from the date of sale shown in the invoice to the immediate customer of JC SOLAR ("*CUSTOMER*"). If MODULES fail to conform to this warranty, JC SOLAR shall, at JC SOLAR'S discretion, either repair or replace the product, or refund the purchase price as paid by the CUSTOMER.

Peak Power Warranty

10 years

JC SOLAR warrants that its MODULES shall give at least 90% of the minimum "*Peak Power at STC*"[1] as specified in JC SOLAR 's Product Specification Sheet attached as **Exhibit A** within 10 years from the date of invoice to the CUSTOMER. If any MODULES exhibit a power output less than 90% of the minimum "*Peak Power at STC*" within this period of time and if such loss in power is determined by JC SOLAR's sole discretion to be due to non-conformity to the Specifications or defects in materials or workmanship, JC SOLAR shall then remedy such loss in power by either providing additional MODULES, or replacing the defective MODULES at the discretion of JC SOLAR.

25 years

JC SOLAR warrants that its MODULE shall give at least 80% of the minimum "*Peak Power at STC*" as specified in JC SOLAR 's Product Specification Sheet attached as **Exhibit A** within 25 years from the date of invoice to the CUSTOMER. If any MODULES exhibit a power output less than 80% of the minimum "*Peak Power at STC*" within this period of time and if such loss in power is determined by JC SOLAR's sole discretion to be due to non-conformity to the Specifications or defects in materials or workmanship, JC SOLAR shall then remedy such loss in power by either providing additional MODULES, or replacing the defective MODULES at the discretion of JC SOLAR.

In addition, the "*Five Year Product Warranty*" and the "*Peak Power Warranty*" shall not cover any transportation charge, customs clearance or any other costs for return of the MODULES, or for reshipment of any repaired or replaced MODULES, or costs associated with installation, removal or reinstallation of the MODULES.

Exclusions and Limitations

(1) In any event, all warranty claims must be filed within the applicable warranty periods.

[1] "*Peak Power at STC*" is the power in Watt peak that a PV module generates in its Maximum Power Point. "STC" is given as follows: (a) light spectrum of AM 1.5, (b) irradiation of 1.000 W/m^2 and (c) cell temperature of 25°C at right angle irradiation. The measurements are carried out in accordance with IEC 61215 as tested at the connectors or junction box terminals – as applicable – per calibration and testing standards of JC SOLAR valid at the date of manufacture of the MODULES.

(2) The "*Five Year Product Warranty*" and the "*Peak Power Warranty*" do not apply to any MODULES which have been subjected to:

- Misuse, abuse, neglect or accident; or
- Alteration, improper installation, repair or application or damage due to transportation which the CUSTOMER is responsible for; or
- Non-observance of JC SOLAR's installation and maintenance instructions as attached as **Exhibit C**; or
- Power failure surges, lighting, flood, fire, accidental breakage or other events outside JC SOLAR's control.
- Damages due to abnormal environmental conditions, including without limitation improper voltage , acid rain , mobile or marine environment and other pollution and defective construction base on which the MODULES are mounted.
- Damages due to external corrosion, mold discoloration or the like.
- Damages due to movement from their original installation.

(3) Warranty claims will not be honored if the type or serial numbers of the MODULES have been altered, removed or made illegible.

Limitation of Warranty Scope

These "Warranties for PV Modules" as set forth herein are expressly in lieu of and exclude all other express or implied warranties, including but not limited to warranties of merchantability and of fitness for particular purpose, use , or application, and all other obligations or liabilities on the part of JC SOLAR, unless such other obligations or liabilities are expressly agreed to in writing signed and approved by JC SOLAR. Under no circumstances shall JC SOLAR be liable for incidental, consequential or special damages, however caused. Loss of use, loss of profit, loss of production, and loss of revenue are therefore specially without limitation excluded.

The aggregate liability of JC SOLAR, if any, in damages or otherwise, shall not exceed the invoice value as paid by the CUSTOMER, for the purchase order including the defective Modules which cause damages.

Obtaining Warranty Performance

If the CUSTOMER is aware of a claim covered by this "*Warranty for PV Modules*", a notification directly to JC SOLAR shall be filed without undue delay. Together with the notification, the CUSTOMER should enclose the evidence of the claim with the corresponding serial numbers of the MODULES and the invoice on which the MODULES have been purchased.

The return of any PV modules will not be accepted unless prior written authorization has been given by JC SOLAR.

Severability

If a part, provision or clause of this "*Warranty for PV Modules*", or the application thereof to any person or circumstance, is held invalid, void or unenforceable, such holding shall not affect and shall leave all other parts, provisions, clauses or applications of this "*Warranty for PV Modules*", and to this end such other parts, provisions, clauses or applications of this "*Warranty for PV Modules*" shall be

treated as severable.

Disputes

In case of any dispute regarding a warranty claim, the parties shall endeavour to agree on a first-class international test-institute such as Fraunhofer ISE in Freiburg / Germany, TÜV Rheinland in Cologne / Germany or ASU Arizona State University in United States to be involved and to settle the claim finally. In such a case all fees and expenses shall be born by the losing party, unless otherwise awarded.

Miscellaneous

The repair or replacement of the MODULES or the supply of additional MODULES does not cause the beginning of new warranty terms, nor shall the original terms of this "*Warranty for PV Modules*" be extended. Any replaced MODULES shall become the property of JC SOLAR for their disposal. JC SOLAR has the right to deliver another type (different in size, color, shape and/or power) in case JC SOLAR has discontinued producing the replaced MODULES at the time of the claim, provided that such other types of modules are technically compatible with the remaining MODULES.
