**Subject: Project Status**
**Ref no. QTHZP1103012**

| | |
|---|---|
| License holder /Manufacturer: | Anhui Schutten Solar Energy Co., Ltd.<br>Weisan Road, Quanjiao Economic Development Area,<br>Chuzhou City, Anhui Province, 239500<br>P.R.of China |
| Product: | PV modules |

6" Mono cell:
STM6-xxx/72 (xxx= power range 245-300W in increments of 5)
STM6-xxx/60 (xxx= power range 205-250W in increments of 5)
STM6-xxx/54 (xxx= power range 185-225W in increments of 5)
STM6-xxx/48 (xxx= power range 165-200W in increments of 5)
STM6-xxx/36 (xxx= power range 125-150W in increments of 5)

5" Mono cell:
STM5-xxx/96 (xxx= power range 215-260W in increments of 5)
STM5-xxx/72 (xxx= power range 160-195W in increments of 5)
STM5-xxx/36 (xxx= power range 80-95W in increments of 5)

6" Poly cell:
STP6-xxx/72 (xxx= power range 245-300W in increments of 5)
STP6-xxx/60 (xxx= power range 205-250W in increments of 5)
STP6-xxx/54 (xxx= power range 185-225W in increments of 5)
STP6-xxx/48 (xxx= power range 165-200W in increments of 5)
STP6-xxx/36 (xxx= power range 125-150W in increments of 5)

Herewith it is declared, that for the above noted products all testing according to the international standards IEC 61215:2005 (EN 61215:2005) and IEC 61730-2:2004 (EN 61730-2:2007) were successfully finished except the following tests:

杭州汉德质量认证服务有限公司上海分公司
TÜV NORD 集团成员之一
TÜV NORD (HANGZHOU) CO., LTD
Shanghai Branch.
Member of TÜV NORD Group

中国上海市黄浦区汉口路 266 号申大厦 11 楼
11F, Sail tower, No.266 Han Kou Rd., Huang Pu
District, Shanghai, China, 200001

10.9 Hot-spot endurance test: Pending

10.12 Humidity-freeze test: Ongoing

10.14 Robustness of terminations test: Pending

10.16 Mechanical load test: Pending

10.16 Hail test: Pending

MST12 Cut susceptibility test: Pending

MST14 Impulse voltage test: Pending

MST32 Module breakage test: Pending
