Tamesol
ENERGÍA PARA VIVIR

Tamesol Vision

A motto
Make profitable today, the energy of the future.

A mission
Be a leader in developing energy solutions, contributing actively to social welfare and sustainable development.

One objective
To contribute making the world a better place, it's a subliminal message of our company concept, using our work to contribute.

One detail
We stop emitting more than 400,000 tons of CO_2 per year, contributing to the protection of the ozone layer.

Tamesol Brand

· More than 40.000 families have already relied on us

· With over 10 years experience in this sector, Tamesol brand is known as synonymous of trust and guarantee.

· All the company certificates that we acummulate support us; ISO 9001, OHSAS 18001, ISO 14001 and others.

Tamesol ®

Tamesol, manufacturer of photovoltaic modules and glass-glass (BIPV) systems integration. Founded in 2005 we have been acquiring a great experience during these years that has allowed us to participate in various types of Projects connected to the network.

From our headquarters in Spain (Girona), Tamesol research and develop new solutions to improve the performance of our modules and systems, also coordinate all the logistics and delivery of our products.

Our decentralized Manufacturing process, adapts to the characteristics of each market, whether producing in our factory located in China or Europe. If necessary, we can set our production line anywhere in the world.

Tamesol team workers are highly qualified professionals with extensive experience in the renewable energy sector.Already more than 40.000 families who trust us.

Products and services

TM Series photovoltaic modules, photovoltaic solutions, BIPV and Photovoltaic Streetlamps integrated our photovoltaic technology catalog. Tamesol components meet quality and efficiency characteristics, based on our production processes. High quality standards, all certifications and assurances of product / company.
In Tamesol, we spend few months incorporating new business partners, companies with which we combine forces, providing a product-service package with higher added value.

We leave to issue over 400,000 tonnes of CO_2 per year

More than 40,000 families already trust in us

China · India · Malaysia · Taiwan

Projects

Spain · Italy · Romania · India · Pakistan · China · Morocco · Colombia · Brazil · USA

CHRONOLOGY

With over 10 years experience in this sector!

2003. Firsts distribution operations of photovoltaic solar modules.

2003
Firsts distribution operations of photovoltaic solar modules

2005
Constitution of TAMESOL DESA SL and construction of the headquarters located in Girona (Spain)

2007
Creation of the first production plant of the group in China. **TAMESOL®**, manufacturer of high efficiency photovoltaic module

2009
Implementation of a branch for the Italian market

2010
More than 10KW in **TM Series** Modules, supplied to the Italian market durint the first year

2011
Creation of the **Partner TM** to continue our international growth strategy

2012
Firsts Partners TM in Italy, Spain, USA, Germany, France and UK

2013
Tamesol Solar LTD creation, Brazilian filial of Tamesol Group. Opening of new production plants in Malaysia and India

Tamesol
ENERGÍA PARA VIVIR

OUTSTANDING

2005. Constitution of **TAMESOL DESA SL** and construction of the headquarters located in Girona (Spain).

2007. Creation of the first production plant of the group in China. TAMESOL®, manufacturer of high efficiency photovoltaic module.

2009. Implementation of a branch for the Italian market.

2011. Creation of the **Partner TM** to continue our international growth strategy

2013. Tamesol Solar LTD creation, Brazilian filial of Tamesol Group. Opening of new production plants in Malaysia and India.

WHY TAMESOL

TM Series modules and structures

Tamesol, manufacturer of high-efficiency photovoltaic modules, offers its customers high quality TM Series modules.

With a wide range of modules you can choose the best option for your project. For your safety and confidence,**TM Series modules ensure 90% during the first 10 years and 80% power during 25 years**. All Tamesol TM Series modules offer a variation 0% to + 5% power tolerance (positive tolerance)

So losses are minimized by mismatches between the modules and the output is optimized.

Main characteristics of TM Series modules

· Polycrystalline, with powers from 125Wp 300Wp rod
· Monocrystalline, with power from 85Wp to 300Wp
· 10 years of product warranty
· 25 year powertrain warranty
· High resistance
· All types of certifications required
· Aluminum frame
· High tansparency tempered glass, low iron content
· Antireflection coating

TAMESOL PARTNERS, ¡JOIN A GREAT TEAM!

Why?

Tamesol is being expanded to new horizons. So we've decided to create a network of partners to act on behalf of our company. We establish a close relationship with all our partners, as part of a team. Tamesol not just provide its product, but will also work with all actively providing the necessary support to find the best solution.

Who?

Whether you're an industry professional or want to introduce you to it, in Tamesol have a company willing to help you. Engineering, installers, distributors, dealers, etc. All have a place in our project.

Advantages

· 50% discount on the price list

· Two-way trade relationship
We make actions and capture projects that we give to our partners from its location.

· Geographical exclusivity
Give our partners a total exclusivity zone, a policy area that only he can claim.

· Collaboration
What is good for you, it is for us. Tamesol believe that collaboration and mutual support is the best way.

· Partner management software
Online custom tool for its activity as a partner.

· Linkages with the web as Official Partner
We generate advertising and industrial impact.
